

Environmental Policy

OC BIOENERGIA S.A.S directs its actions towards the generation of renewable energy, achieving a balance between economic growth and environmental protection through the exclusive use of biomass.

That is why our environmental commitment includes giving value to the energy of the peanut shell, and is based on the following pillars:

-
- Respect the current environmental regulations and other requirements.
 - Minimize adverse environmental impacts.
 - Generate electricity by efficiently consuming of natural resources and promoting sustainable development.
 - Measure the generation of waste, separate it correctly and look for alternatives to reuse by-products.
 - Generate environmental awareness through continuous training of personnel.
 - Constantly improve the performance of our environmental management system.
 - Communicate all relevant environmental information to staff and keep this policy available to all interested parties.
-

Oscar Cavigliasso
